PROFESSIONAL SUMMARY

AI Product Manager building internal decision systems and automation layers that eliminate bottlenecks across high-scale operations. Converts scattered data and manual workflows into real-time intelligence surfaces, NL-driven interfaces, and AI copilots that accelerate decision-making in operationally intensive environments. Combines platform-level product strategy with hands-on AI execution, shipping rapid prototypes that move teams from slow, reactive cycles to fast, predictable outcomes.

PROFESSIONAL EXPERIENCE

August 2025 – Present

Product Manager, Stanza Living

- **Drove AI-led transformation across voice, video, reporting, and ops workflows**, targeting scalability issues in property operations and city-level coordination; shipped prototypes and copilots that replaced slow manual tasks with automated, high-throughput execution.
- **Designed real-time intelligence surfaces** for occupancy, attendance, housekeeping, and support operations, eliminating fragmented reporting and giving leadership a unified operational view for faster interventions.
- **Led organisation-wide programs (300+ stakeholders)** to standardise workflows, align engineering, ops, design, and vendor teams, and deliver predictable system changes across 20+ operational clusters.
- **Owned multi-stream product delivery end-to-end**, combining discovery, system architecture, and rapid MVP builds to compress validation cycles from weeks to days and accelerate adoption of new internal AI systems.

June 2023 – July 2025
Delhi, India

Assistant Product Manager, Power Finance Corporation Limited

- **Automated 85 percent of manual financial reporting** across multi-thousand-crore infra portfolios, saving 12+ hours/month for risk and credit analysis teams.
- **Deployed NLP-based credit risk models** (entity extraction + rule-based scoring) to flag early-risk indicators in long-term infra loans, reducing early-stage default exposure by 20 percent.
- **Partnered with senior leadership on portfolio intelligence dashboards**, generating insights that shaped over ₹500 Cr worth of portfolio reallocation decisions.

January 2021 –
August 2021
Bhubaneswar, India

Co-founder & Product Lead, Brahmagupta Edu Pvt. Ltd.

- **Led 11-member team to ship adaptive learning MVP, boosting engagement by 40%**
- **Grew YoY revenue by 50% through AI-driven personalization and smarter content delivery**

January 2020 –
December 2020
Bangalore, India

Product Associate, Pigeon Education Pvt. Ltd.

- **Launched ML-enabled grading assistant, reducing ops effort by 40%**
- **Improved student participation by 80% via UX revamps + gamified features**

SKILLS

Product Management

Product Roadmapping
(OKRs, ICE, RICE), MVP
Development, Agile &
Scrum, Feature
Prioritisation, User
Research, GTM Strategy,
A/B Testing

Technical Skills

Python, SQL, OpenAI API,
Fast API, Streamlit, Prompt
Engineering, NLP, GA-4

Tools & Platforms

Figma, JIRA, Mixpanel,
GitHub Projects, Notion

PROJECTS

MoodBite – Voice-first food concierge

- Solved decision paralysis during food ordering by enabling users to navigate menus through natural voice queries. Processed 200+ voice interactions, cut trial-to-preference time by 60 percent, and converted 37 percent of pilot users to checkout. Built with GPT API, Web Speech API, Next.js, Tailwind CSS.

FeatureFit – AI-Powered Feature Prioritization Tool

- Reduced sprint planning cycles by 40% by structuring feature scoring and auto-generating impact summaries for PMs. Built in Python + Streamlit + GPT API. 

LLM Tuner – Prompt experimentation sandbox

- Halved prompt experimentation loops by offering side-by-side outputs, prompt versioning, and reusable templates. Built with FastAPI + Streamlit + OpenAI API.

CERTIFICATIONS

- **Certified ScrumMaster® (CSM) – Scrum Alliance**
- **Professional Scrum Product Owner II (PSPO II) – Scrum.org**
- **NTSE Scholar – Top 0.1% India**
- **Finalist** – Tekion PM Case Competition (2022) & WITDA Case Challenge (2022)

EDUCATION

2021 – 2023

MBA, IIM Indore

2016 – 2020

B.Tech(Electronics and Communication Engineering), BIT Mesra
